DETAILED ACTION

This office action is in response to the amendment filed September 29, 2005. In accordance with the amendment, claims 1, 5, and 6 have been amended, while claims 2, 9, and 10 have been formally canceled. Claims 1, and 3-6 are pending.

Election/Restrictions

1. This application is in condition for allowance, except for the presence of claims 7 to 8, which were non-elected without traverse in the paper filed April 20, 2005. Accordingly, claims 7 and 8 have been cancelled by the Examiner's Amendment included herein.

Allowable Subject Matter

2. Claims 1 and 3-6 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record does not teach or reasonably suggest the amended limitations added September 29, 2005, in addition to and in combination with, previous independent claim 1. The closest prior art of record (JP 11305063A to Seiko) does not teach or reasonably suggest the specific properties of a thrusting mechanism (*elasticity*) and the mechanism having a *curved* surface to affect pressurization and regulation of position (claims 5 and 6). Also, Seiko JP '063 does not teach or reasonably suggest the amended limitation of claim 1. The Applicant's remarks and arguments (see page 9, lines 4-22 from remarks filed September 29, 2005) on how the prior art to Seiko JP '063 is overcome by the limitation are persuasive. In particular, the limitation "the holder *and* the holder heating unit (both) being inclinable with respect to a horizontal plane" would deconstruct the "static" device of Seiko JP '063, as there is no reasonable suggestion to a person having ordinary skill in the art to make the adjustment claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inventorship

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
